Sep 2021 - Apr 2025

TECHNICAL CERTIFICATIONS

OSCP, CySa+, Pentest+, Sec +, Net +, A +, Cloud Essentials +, Project+, AZ-900 & AWS CP

EXPERIENCE

Company: Prime Technical Services @ Naval Station Newport (Contractor)

July 2024 - Present

Title: Classified Senior IT Field Service Technician

- Assisted in WIN 11 upgrade for approximately 7000 devices across the enterprise.
- Played a major role in onboarding approximately 3000 new devices into the enterprise.
- Conducted routine maintenance and updates on classified systems.
- Ensured compliance with classified information handling procedures and security policies.
- Collaborated with other IT teams to integrate classified systems with the broader IT infrastructure and support interoperability.
- Troubleshooted and supported network connectivity, including TCP/IP, DHCP, DNS, and VPN.

Company: Centuria @ Hanscom AFB (Contractor)

Jan 2024 - July 2024

Title: Classified IT Field Service Technician & PKI Analyst

- Managed the day-to-day operations of the PKI infrastructure, including certificate issuance, renewal, and revocation.
- Managed cryptographic key lifecycle, including generation, distribution, and destruction, following best practices and security guidelines.
- Resolved technical issues related to operating systems (Windows, macOS, Linux) and productivity software (Microsoft Office, 0365).
- Wrote powerful powershell scripts to assist in troubleshooting

PROJECTS

- Performed dynamic analysis on Windows Executables to exploit logic flaws and create exploits.
- Simulated a penetration test on an Active Directory environment where I achieved full compromise of the domain and documented all findings.
- Automated DISA STIG hardening for RHEL and Windows Server with Ansible, then scanned with OpenSCAP to review results.
